Maryland Department of Transportation  
Light Rail Double Track Project  
Overhead Contact System  
Hunt Valley Station to Cromwell Station & BWI Spur

Dear Mrs. Grattan and Mr. Rubeski,

I want to take this opportunity to express our gratitude for the outstanding performance during your crew's temporary assignment here with us in Baltimore, Maryland. Your crew's dedication, professionalism, and teamwork were major contributing factors to the completion of this complex, challenging, and lengthy phase of the project.

I would also like to thank your General Foreman, Mr. Brian Murphy, for his leadership with regards to safety. Your crews worked approximately 4600 manhours in just under seven weeks without incident.

As a member of the team responsible for bringing this phase of the project to a successful completion, you should take pride in a challenging job well done.

Very Truly Yours,  
MASS. ELECTRIC CONSTRUCTION COMPANY
